see task below

and there is more info on each landfill that they plan to use on:
http://www.epaossc.org/SLA_Landfills

no info on staging areas

Based on the Waste call this morning, we have two issues that need work on over the weekend:

1) Aerial Photos for Transfer/Staging/Landfill Areas - Can we get someone to get aerial photos from Google Earth of each of the Waste Transfer/Staging locations and compile them into a powerpoint presentation? these photos should identify the surrounding areas and any sensitive ecosystems, disparate communities, industries and any other areas of particular note.

2) Waste Characterization Data - Nancy and Steve received a bunch of "waste characterization data" and we need to review and summarize this data. Steve - Could you forward this data to us for review?

Can we get these done by noon Monday?

If I can be of assistance or answer any questions, please contact me at (214)665-7548 or via email at hansen.mark@epa.gov.

Sincerely,

Mark Hansen
